LETTER FROM CITY COUNCIL

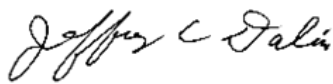

November 4, 2024

Dear Cornelius Community Members,

In the summer of 2023, the City of Cornelius began the process to develop our first community-wide vision plan. Over the last year, we have heard from well over 1,000 of you to form a 20-year plan, and we have named it **Cornelius 2045**. Cornelius 2045 represents your vision for your community, and it will serve as the foundation for future planning efforts, such as the City's upcoming Comprehensive Plan and Parks Master Plan updates and Communications Plan, and it will guide current and future project, program, and investment decisions.

Why is a vision plan important? Without it, the development of our infrastructure, programs, services, and partnerships would happen without the intention of your input. The Cornelius 2045 Plan will provide us and future City leaders with important guideposts to make policy, program, and investment decisions. It will also give us a tool to ensure that we implement what the Plan lays out.

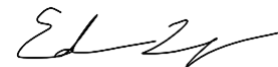

We are at an important milestone in our community's history. We thank you for your time, effort, and involvement in the development of this vision Plan, and we invite you to stay involved as we begin implementation. For more information on how to be involved, please contact the City of Cornelius' Community Development Department.

VISION AND ACTION PLAN CONTEXT AND PROCESS

The Cornelius 2045 Vision and Action Plan is the community's collective vision for the future of Cornelius. The Plan encapsulates community aspirations and priorities through specific Goals and Actions. As Cornelius evolves and grows, this Plan will act as a programmatic roadmap for the next 20 years, serving as the foundation for future and concurrent City initiatives.

The ideas in the Plan are based on input from hundreds of community members in cooperation with local community partners and organizations. The Plan was guided by a volunteer, community-led Cornelius Vision Committee (CVC) representing a wide variety of interests to ensure broad community representation. The overarching goal of the Cornelius 2045 Vision and Action Plan is to guide the City's future growth and evolution through coordinated, collaborative community partnerships and engagement.

To ensure the Plan reflected the diverse voices of Cornelius, a robust outreach effort was launched in August 2023. Over the course of 12 months, more than 1,000 residents, business and property owners were engaged through community conversations, community events, online surveys, workshops and focus groups. These outreach activities sought to uncover what makes Cornelius special today, identify key elements to protect or enhance, and explore areas for future improvement. With a special focus on reaching Cornelius' Latino community through targeted, grassroots outreach and Spanish language support, the process ensured all voices are heard as the City charts its course for the future.

A critical element of the Plan process was the Lead Partner Workshop, where key community partners and service providers were invited to participate in an intensive, half-day workshop to develop collaborative, cross-sector ideas for achieving the community's vision.

The workshop facilitated broad information sharing among local and regional partners and City staff. Participants worked together to identify actions, identify potential lead partners, establish timelines, and estimate the level of effort and resources needed to implement the action. The practical steps developed during this workshop and reflected in this Plan serve as guidance for City departments, government and community partners in developing future work plans and budgets.

Vision and Action Plan Implementation

As a living document, any new actions, changes to existing actions, or refinement of community partners for implementation will be evaluated periodically at the direction of Cornelius City Council. Any major updates to the Vision and Action Plan may involve further community engagement.

Individual actions are implemented under the guidance of community partners, agencies and organizations. City staff will work with lead partners to provide regular updates on adopted actions, identify additional support partners, and pursue funding to facilitate implementation.

CORNELIUS 2045 VISION AND THEMES

The Cornelius 2045 Vision and Action Plan includes a vision statement organized across four themes. The vision statement describes what the community will look like in the year 2045.

In 2045, Cornelius...

Celebrates Culture, Community and Diversity

Cornelius honors its history and heritage by embracing its small-town feel and empowering Cornelius' strong and vibrant Latino community and others. The City partners with local community organizations to create pathways for civic leadership, education, arts, and economic prosperity so every member of our community can thrive and succeed. A strong culture of community engagement ensures the voice of our youth is heard, and every perspective is respected. All residents have access to quality facilities and resources that promote continued learning and cross-cultural connection.

Enhances Connectivity and Accessibility

Cornelius enjoys a safe, connected, and dependable transportation system that prioritizes pedestrian safety and reduces congestion. The City invests in infrastructure that promotes connectivity within the city through a network of sidewalks and crosswalks. Cornelius works with service providers to expand accessible public transportation options, so residents are connected to local and regional employment opportunities, educational institutions, healthcare facilities, and recreation.

Enriches Parks and Recreational Opportunities

Cornelius expands community and recreation facilities and builds programming for community members of all ages and abilities to foster connection and civic pride. A network of trails, parks, and greenways connect neighborhoods and provide opportunities for walking, jogging, cycling, and enjoying nature. Cornelius continues to expand and build connections to the Tualatin River Greenway Trail and the Council Creek Regional Trail to connect Cornelius to nature and recreation. Natural resources are protected, promoting environmental sustainability and conservation efforts that benefit both current and future generations.

Facilitates Strategic Growth and Development

Cornelius invests in strategic partnerships to plan for long-term prosperity and expansion of local jobs and industry. Thoughtful governance guides development in a fiscally sustainable and responsible manner, balancing the need for growth with the preservation of Cornelius' small-town feel and agricultural identity. Residents have access to diverse housing options that respond to the needs of multi-generational living and enhance well-being and quality of life. Placemaking initiatives create connected neighborhoods that reflect our unique character and identity through a vibrant town center, mixed-use developments, and public spaces.

CORNELIUS 2045 ACTION PLAN

The Cornelius 2045 Vision and Action Plan is organized around each of the four Vision themes, and include the following elements:

CULTURE, COMMUNITY AND DIVERSITY
